Project Overview

Introduction and Background

In July 2022 the Downer Group approached Council to host temporary workers' accommodation on land under the care, control and management of Council as part of its construction of the Project Energy Connect.

A lease agreement between Council and Downer Utilities Australia Pty Ltd was entered into commencing 1 November 2022 and expiring on 30 April 2024 for the land at Lot 7 North West Terrace, Morgan.

At the time of the announcement of the lease, it was the intention that a portion of the proceeds from the lease would be invested into the Morgan community, following community consultation.

At the Council meeting held on 18 March 2025, Council allocated a total amount of \$100,000 over two budget periods (2025/26 and 2026/27) for project/s within the Morgan area and community consultation be undertaken to identify suitable project/s for Council's consideration.

About Our Engagement

This report provides an overview of the engagement activities conducted by Council that aimed to gather the Community's suggestions for a suitable project/s for the Morgan and surrounding communities.

What we wanted (Engagement Objectives)

The public engagement program had one objective:

1. To seek suggestions from the community for suitable project/s for Morgan that will benefit the town, surrounding communities and the broader region.

What we did (Engagement Activity)

Communication

Consultation was conducted over a four-week period from Wednesday 14 May 2025 to Wednesday 4 June 2025.

To ensure projects chosen by the Morgan and surrounding communities were received, consultation was targeted at the Morgan and surrounding communities.

Council promoted the engagement through social media, website, newspaper, direct contact with community groups and the Morgan Primary School. Members of the community were invited to provide their feedback on surveys (online) and hard copy and written submissions.

Individual contact was made with the following community groups to advise of the consultation:

- Morgan Community Development & Tourism Association Inc.
- Lions Club of Morgan and District Inc
- Morgan RSL
- Morgan Small Bore Rifle Club
- Morgan Men's Shed
- Morgan Classic & Custom Vehicle Club Inc
- Morgan Go Kart Club
- Morgan Primary School
- Morgan Kindy
- Lions Youth Group
- Morgan Gym participants
- Morgan and Cadell students on the Waikerie high school bus

Council provided the following engagement activities during the engagement process:

- Online and hard copy surveys
- Youth survey – hard copy
- Written submissions

Engagement Response

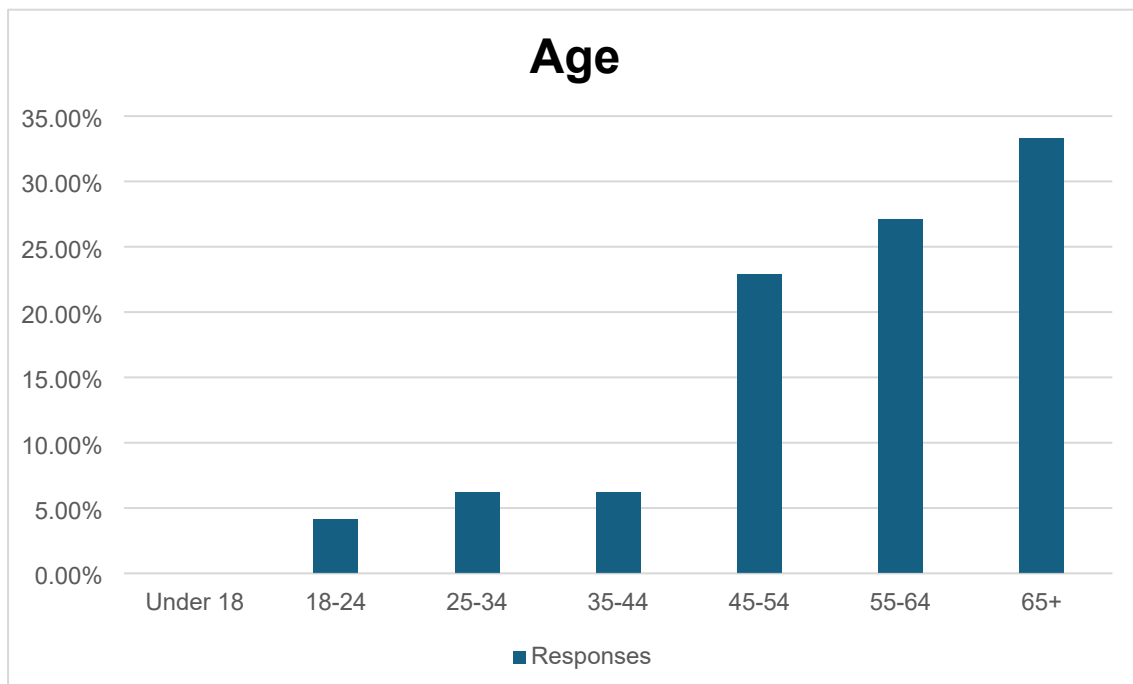

Response rate

Council received 47 responses to the online survey, 33 responses were received to a survey tailored for school students / youth and one written submission was received.

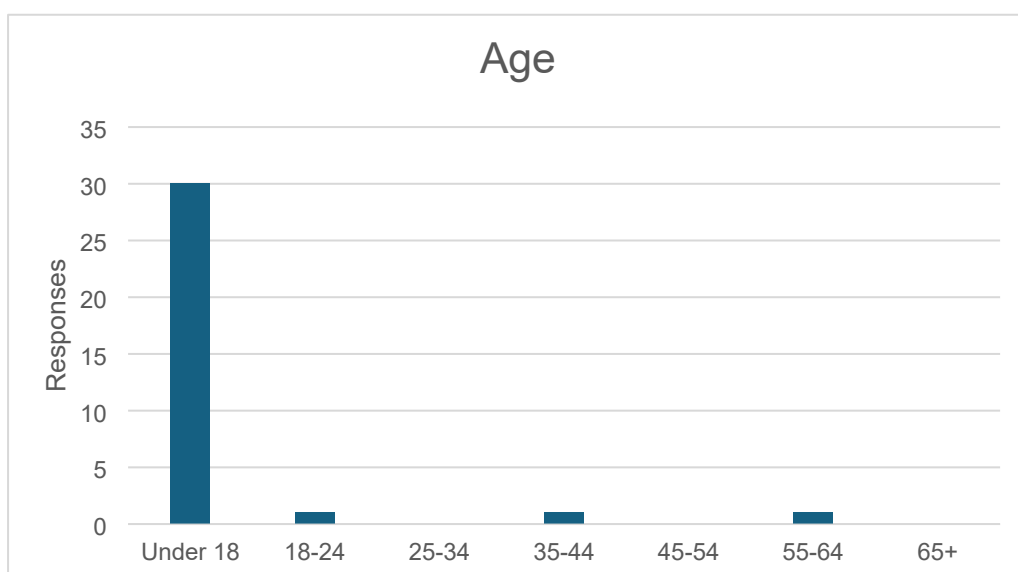

Total responses received was 81.

Written Submissions

One written submission from the Morgan Community Development & Tourism Association Inc was received, refer Appendix D.

Morgan Community Development & Tourism Association Inc

A community meeting was facilitated by the Morgan Community Development & Tourism Association Inc, attended by 22 community members. The following top suggestions were majority voted by those present at the community meeting.

2025/2026 Priority Projects:

1. Welcome signs into the town, including the movement of the paddle wheel on Goyder Highway
2. Toilet upgrade at Morgan Institute
3. Pump tracks/outdoor gym equipment next to current playground

2026/2027 Priority Projects:

1. Morgan Sporting Complex – upgrades to their facilities. Kitchen, air conditioning/heating and solar
2. Gym equipment upgrades
3. Off lead dog park opposite Morgan Museum

Conclusion

Community engagement is seen as a critical input to the decision-making process by Council for selecting suitable project/s for Morgan to expend the budgeted amount of \$100,000 over two financial years on projects for Morgan and the surrounding area.

Council's decision making is based on being informed and understanding:

- Existing legislation and policies
- Previous council decisions
- Specialist advice
- Community engagement
- Social, Economic and Environmental context
- Research and analysis
- Available resources

It is noted that the community engagement input is useful as an indicator of types of perception in our community but should not be considered representative of the whole population.

Feedback from the community consultation has indicated that the Morgan and surrounding community has a lot of different ideas on what project/s should be progressed. There is no one clear project that the whole community would like to be progressed.

Next Steps

The information and data that has been collated from the community consultation phase of the Morgan Community Projects will be presented to the June Council meeting along with this What We Heard Report for consideration of suitable project/s. Selected projects will then be costed for further Council / community consideration.

This What We Heard Report will be made available on Council's Website to close the loop on the Morgan Community Projects consultation.

Appendices

Appendix A – Public Notice

Morgan projects

Mid Murray Council is inviting suggestions from Morgan and surrounding communities on suitable community project/s for the Morgan area.

As a result of lease fees received for a temporary workers' accommodation on Council land, Council has allocated a total amount of \$100,000 over two budget periods (2025/26 and 2026/27), for project/s within the Morgan area.

The consultation process is open from Wednesday 14 May 2025 to 5.00pm Wednesday 4 June 2025, and will provide an opportunity for community input into suitable project/s for the Morgan area for consideration by Council.

Please refer to Council's Facebook page and website www.mid-murray.sa.gov.au for information on the consultation process and opportunities to provide feedback.

We would benefit from a dog park - maybe opposite the bakery where lots of visitors stop and go to the bakery and walk the dogs around the lawn area.
The Remembrance Garden also opposite the bakery is in dire need of an upgrade.
I would love to see the water tower painted (mural) - this would also attract visitors to our town.

Q6

Do you have any further comments in relation to this project?

Any projects to add to our town and attract visitors would be very much appreciated. Thank you.

The town needs desperately white paint and signage at all intersections 10th st and the lookout street railway st riverfront rd next to public toilets as the postie of morgan i have had near misses from tourists and locals that dont think its a intersections which i have voiced my concerns to council and they advised me there was nothing they could do.

all new give ways paint has faded hasnt lasted very long at all

Morgan has correct giveways high st and 8th st

7th and nwt theres paint on all roads confusing

7th and burra road needs some signage and white lines and the rest of the give ways are opposite i think this needs to be changed all the same as a lot of confusion to many drivers

Yellow lines at intersections so no parking and along 4th street as people park where they want driveways footpaths no access for wheelchairs or gophers yellow lines repainted at school crossing staff and parents park illegal everyday compromising the crossing Truck od rd needs to be bitumen so no dust when theres triples like 4 in a row because of accidents on highway it covers all theile hwy accident waiting to happen and white lines and more signage for the truck drivers trucks are going thru morgan not doing 50 they are howling thru when trucks go from high street to 4th street they go out wide way over to other side it wont be long for a accident

Yellow lines would help this on 4th street cars are parked everyday at intersection

Morgan has blue dots on trees these trees are to be cut down only a small handful have one resident got a big hole where tree taken out and its a footpath another resident got their tree taken out and they had all depot blokes fixing the area and putting gravel down one example i have seen discrimination from councils workers others have got some no parking signs just because their friends with council workers not right

Morgan could do without the council office really all they do is pass you a number to ring mannum waist of time and money

I live out of morgan and pay the same wheelie bin rates as someone in town i am only 1 red lidded wheelie bin i can not recycle or put green waste out my bin charges should be reset to account for this its cheaper for me to have a private deal with solo but the wheelie bin council worker said i couldnt to that as its not allowed

Q6

Do you have any further comments in relation to this project?

Roads need to be safe and marked properly for the safety

Bitumizing Pelican Point Road from Murraylands Rd to Hausler Rd.

This section needs constant attention to try and keep it from a dangerous state. Council has been requested constantly over the last 15 years (or more) to bitumize it in keeping with the other shack access roads.

Q6

Do you have any further comments in relation to this project?

This would free up machines, man power and band aid patching while providing a much safer permanent remedy

It's crown land I know, but it should either be sold off or used in a way to create something beautiful to see on the way in to Morgan. Give people a reason to stop and visit within the town instead of just driving past a scrub patch.

Morgan needs love. (As do many small towns in the mid Murry council) but since the floods the town is still in disrepair. The Riverfront is such a great place to hold events however it's very neglected, almost to a safety concern.
The local kids need more in this town. We also need more to drawn in tourist families for the money to come into the town.

Id love to see an outdoor gym placed down the Morgan river front, alongside the current playground. I walk every morning and take note of the numbers out exercising. Personally I think an outdoor gym would benefit the community as a whole but also be utilised by the travelling / holiday population.

Follow on tree plantings, started by the community group back then, Make Morgan Grow, plantings down South West Terrace as beatification and wind break. More plantings on other side of town.

Plantings around cemetary, water to be made available to keep plants alive. Not a very nice place to visit to remember a loved one at the moment. More shade needed, bit of greenery.

Welcome to Morgan parking Bays , greenery planted, welcome and information signage.

Plenty of plants with low water needs around.

Q6

Do you have any further comments in relation to this project?

Well, we will wait and see if anything IS done for Morgan.....

Q6

Do you have any further comments in relation to this project?
It would be great to have a dog park with 2 separate runs, similar to Berri and Bamera where we could safely let our dogs exercise, we have a large number of dogs in the town and have even more that visit with the travellers that come through the town

Q6

Do you have any further comments in relation to this project?

Market monthly will bring people to the town but also give locals a avenue to show off their art,craft and home produce. Including wine and fruits, veg and bakery

This will bring funds to people of the town struggling to make ends meet and visitors to spend in the town business's
I believe this will benefit many

I would really like to see some funding going into footpaths in the Morgan township. We have an ageing population and I assure you that old joints find the stony footpaths very painful and dangerous. Even Gophers have trouble travelling on some footpaths in the town.

With the ever changing climate I believe some tree planting to provide shade will assist both the town in general and its appearance

Q6

Do you have any further comments in relation to this project?

I realise that the sort of funding you are making available is only tokenism but every little bit helps.
Whatever projects you eventually select it must be something that benefits us all, not any group, club or similar.

2. Upgrade Kitchen.

Since being built in 1991 with a second hand domestic kitchen the kitchen has not been updated to current regulation changes.

3. Air Conditioning

The building has no air conditioning and with temperatures in Morgan up to 45 degrees c. the building is very uncomfortable for any community event.

Q6

Do you have any further comments in relation to this project?

The Morgan Sporting Complex is a community building which has had no major upgrades since being built in 1991. As lease holders we would like to see more use of the building by the community and from outside the area.

Setting up new system of hot meal deliveries to Blanchetown. A trial for one day a week, that will need a hot box, a soup warmer, an esky and a fruit basket. Two of each. Swapping at each pickup with the kitchen. This trial idea was mentioned by a member of the Blanchetown community. We in Morgan are happy to organize all the admin for it. Blanchetown would need to organize patrons and pickups and deliveries. As part of admin, talks with the kitchens and practical matters like hot boxes need taking care of. We in Morgan can handle that additional work. The costs of two sets of hotbox, soup warmer, esky and fruit basket would probably be about \$2000.

Q6

Do you have any further comments in relation to this project?

If Mid Murray Council would commit to supporting Morgan Volunteer Support Group with the purchase of the necessary equipment this would help. \$2000 would be the max we ask for, if it goes over we will cover the rest. Thanks. [REDACTED]

Tidy up the riverfront,

The bank of the riverfront is horrible not very good with the massive drop off. The ground around the little jetty by the boat ramp is a hazard. Only a matter of time before someone sues the council because they have fallen down the unstable washed away base

Update bike track near the oval - kids in Morgan need a safe, well maintained place to ride bikes, have fun and get outdoors.
Build something near the water front and current playground for ages groups 7-15 to utilise. The current playground/boat is suited to under 7 age groups.
Spilt the funds between the community groups in Morgan to help fund more events to draw-in tourism to our historic town.
Use a portion of the funds to protect the tapestry/fabric arches located in the Landseer Musuem, if these are not preserved they will rotate, get ruined and be lost from our town.

Q6

Get all groups together to discuss further what the funds can be used for within the township of Morgan.

New toilet facilities at the Morgan Institute - with the Institute now being used regularly and starting to hold events new toilet facilities would benefit the users of the Institute and the community as a whole as more events (especially fundraising for the community) can be held.

A Community Garden - this could be built on the previous Downers Site along with a shed for the Men's Shed initiative.

Furthermore the BMX track could be fixed and an undercover shelter with seating for parents to watch their kids. This area could be utilised to bring community together.

Morgan wharf precinct.

The wharf is a core feature of Morgan's rich heritage. Currently it is in such disrepair that it is fenced off to prevent public access. Some of the Morgan nest egg should be spent to prevent further deterioration with a view of returning public access at a future time.

Q6

Do you have any further comments in relation to this project?

Existing interpretive signage should be reviewed and addition interpretive and guidance signage be installed to encourage visitors to walk around the railway and wharf precinct- especially near the ferry loading area.

We own property in the Morgan area and have observed travelers rarely stop in town other than to fuel up at the roadhouse. Morgan is a significant heritage destination and deserves more attention from passing travelers.

An updated playground and skate park. The eye sore we have is useless, dangerous and should have been removed years ago. Kids in this town should have things to do but unless they play at the primary school there is nothing for them. Morgan bowls club could do with some updated lights, they are one of the last sporting clubs left in Morgan but the lighting for the greens is way out of date and half the lights don't work. They hosted the downer group for a bingo night to give the workers some relaxing time. The club can not afford to replace the light and every grant they apply for goes elsewhere.

Improvement of the boat launching ramp at Murbko.

The boat ramp is currently only a dirt construction and not in very good condition.

Over the past few years there has been a considerable increase in the number of boats being launched at this site. Particularly on weekends. After several boats have been launched or retrieved the ramp becomes quite wet and slippery. This makes it difficult for other people wishing to use the ramp

Q6

Do you have any further comments in relation to this project?

To remedy the situation the ramp needs to be upgraded to a concrete ramp. A floating walkway pontoon along side would also improve the facility immensely.

Please list your project/s and the reason for your suggestion

1. Investment in the PS Canally. The PS Canally is a great tourist attraction, having it operational could bring much needed money into tourism and the town.

2. River front splash park. With the increase of young families with young kids visiting our region it isn't always safe to swim in the river when there is high boat traffic in the summer. A splash park would get tourist to stay longer and therefore spend more money in the town, as well as bring people from neighbouring towns to Morgan for the day.

We need to spend money to make money and the more time people spend in our area the more money they will spend. Tourism is a huge factor for local businesses and community groups, if we generate more money for the town then local businesses can employ more people, benefiting everyone.

Bringing people to Morgan and keeping them here for an extended period of time is in everyone's best interest.

Greetings,I would like to make a constructive suggestion for the Downer rent money. I work at the local and have heard the valid concerns of clubs, individuals and what they would like to happen with these funds. In the big picture it is not a lot of money and I believe my suggestion will be achievable and cross a lot of interest groups. I have lived in the Morgan area coming up 30 years and in that time have seen street trees, reserve trees, riverfront trees disappear and and to my recollection have seen some trees planted by Council some 20yrs. ago.I know we cant look like Waikerie with their streetscaping but we could beautify our town with trees and shrubs within a scaled down streetscaping plan creating a welcoming appearance, hiding a myriad of sins, creating shade and under power lines selecting size appropriate trees and shrubs even citrus so they are not pruned into ridiculous and dangerous shapes by the power company.I have no costings to give you but am up for a discussion on this matter I am however aware you would need the following

1. dial before you dig
2. you need to break through the limestone
3. add a pipe to direct water to the roots
4. plant suitable trees
5. follow up watering program in the establishment period and as required

Beautification of our town will be beneficial to everyone, something for everyone to see, enjoy all encompassing. Our town really does look a bit average and this will create an awesome welcoming pathway for tourists, lets get the kids involved in the planting, create inclusion and generational respect for our town especially in these times of climate change, lets capture some carbon and give our kids a healthier and beautiful future. Awaiting your considered response, have a great day.

Complete Signage at each entrance point to Morgan to help stimulate the economy and support local businesses. We are only capturing a portion of visitors to our town at the moment and we could increase the visitation 50% if we have better town signage.

- Maintain and improve the BMX Track up near the Morgan Sporting Complex. My child uses this on a regular basis and we need to improve this space to encourage children to be outdoors and improve well being. We need to make this a safe well maintained area for our youth.
- Pump Track great idea
- Fix up the Toilets at the Morgan Institute so that the Community can host larger functions in this building.
- Support ideas from the MCDTA - Outdoor gym equipment/ basketball area at the Riverfront Playground to engage the older youth and adults.

Q6

Do you have any further comments in relation to this project?

Signage first preference to help Morgan grow in the Tourism space and also stimulate and support local small businesses. If Morgan looks inviting then people will build and buy in our area and continue to support the region.

I believe a Dedicated Dog park would be great for Morgan. Lots of Morgan residents would use the Dog Park, and its a fantastic facility for travelers to have a cuppa whilst their favorite pet has a spell from being cramped in the car. We see many travelers in Morgan, many of whom are Grey Nomads who often have their pup with them. I think those double sided Dog Parks are the better type: then those with pets who get along, and those whose pets might be a little wary or afraid of others, can be seperate, safe, and maybe say g'day through the dividing fence. In my experience many country towns have Dog Parks now. We love them and so do our dogs. Thank you.

Q6

Do you have any further comments in relation to this project?

Only to say that I dont believe there is anything negative about a Dog Park. Everyone wins. Locals benefit: even those without a dog could go to sit and contemplate in peace, especially if its a nice spot. Local dog owners would enjoy the safety and security for their favourite pet away from roads. Most dogs just love to be able to mingle and play, so a fenced space safe from the road is perfect. Travelers, like us, from out of town or interstate are often looking for a Dog Park because it provides a safe space in an unknown location, where they can be responsible pet owners and allow their dog some respite from the road.

What do you like about Morgan or the town you live in?

Nothing. This town has nothing for young adults to do except go to the pub. Maybe if there was more things for the large s&lm of young adults to we would have less alcoholics and drug addicts in town.

If Council was to spend some money on a project in Morgan, what would you like it to be spent it on? Eg. Play ground equipment, basketball ring etc

The council should spend money on the town not on IF! Firstly more things for the young people to do. And not just the kids. Get the young people of the streets. Secondly a doctor in town. Why should we have to travel an hour for a doctor?

What do you like about Morgan or the town you live in?

I like having a small community as it allows me to make connections and trusting friendships within my community. However in cadell there is little to nothing for teens to do and majority of the population is 50+.

If Council was to spend some money on a project in Morgan, what would you like it to be spent it on? Eg. Play ground equipment, basketball ring etc

A gym in cadell as there is plenty of room in the town for one and people who cant drive to morgan or waikerie would benefit. As the cadell oval is now a caravan park there is no place kids / teens to can go for fitness or to waste energy a gym could potentially solve this issue. (or outdoor exercise equipment)
Other mid murray towns have beautiful riverfronts after the floods that get consistent upkeep, unfortunately cadell has not been one of those towns. As a social teen i would enjoy being able to go to the cadell riverfront and spend a day there with the appropriate upgrounds such as stone shelters, more BBQ's, and a fixed bank (its very steep and hard to walk down to access the riverfront). ~~Also~~ Additionally, growing up a functional tennis court would have been nice.

Please return to your teacher or to the front desk by Wednesday 28th May 2025.

The Asphalt is cracked and falling apart, the netball hoops are broken and the lines have completely faded.

Dear Mayor and Elected Members,

We write to inform you our group facilitated a community meeting for the Morgan community regarding the current survey for Morgan Community Projects held on Tuesday 27th May 2025.

The top suggestions were majority voted by the people present on the night and I have attached our attendance list to this correspondence;

2025/2026 Priority Projects

1. Welcome signs into the town, including the movement of the paddle wheel on Goyder Highway.
 - a. Special mention regarding the issue that a lot of travellers have identified to local businesses they had no idea Morgan was actually on the Murray River and has a wonderful Riverfront Area.
2. Toilet upgrade at Morgan Institute – to facilitate more use of the building
3. Pump tracks/outdoor gym equipment – perhaps next to current play ground to support local kids and parents with something for them to do together and give them a meaningful choice of things to do.

2026/2027 Priority Projects

1. Morgan Sporting Complex – upgrades to their facilities. Kitchen, air conditioning/heating and solar.
2. Gym equipment upgrades
3. Off lead dog park – possible location is opposite Morgan Museum
