INTRODUCTION.....	1
ENGAGEMENT APPROACH	1
ENGAGEMENT ACTIVITIES.....	2
ENGAGEMENT OUTCOMES	2

Introduction

The Disability Inclusion Act 2018 (SA) establishes a clear commitment to improving access and inclusion for people with disability across South Australia. It requires all state authorities, including local councils, to develop Disability Access and Inclusion Plans (DAIPs) that give effect to the State Disability Inclusion Plan and uphold the rights of people with disability to participate fully in community life.

The South Australian State Disability Inclusion Plan 2025–2029, *A South Australia where no one is left behind*, sets out a whole-of-government strategy to remove barriers, promote equity, and drive inclusive change. It is structured around five domains:

1. **Inclusive environments and communities**
2. **Education and employment**
3. **Personal and community support**
4. **Health and wellbeing**
5. **Safety, rights and justice**

The Plan also emphasises the importance of addressing the needs of legislated **priority groups**, who may experience compounded disadvantage. These groups include:

- Aboriginal people with disability
- People from culturally and linguistically diverse (CALD) backgrounds
- Women with disability
- Children with disability
- People with disability who identify as LGBTIQ+
- People with significant intellectual disability or high vulnerability
- People with disability who live in regional communities

Engagement Approach

The development of the Mid Murray Council Disability Access and Inclusion Plan (DAIP) 2025–2029 was guided by a structured and inclusive engagement process facilitated by Healthy Environments and Council staff, in alignment with the Disability Inclusion Act 2018 (SA) and the State Disability Inclusion Plan 2025–2029. The process ensured meaningful participation from council staff, elected members, stakeholders from the disability sector, community members, and people with lived experience of disability, consistent with principles of accessibility outlined in the DAIP Guidelines and State Plan.

Council adopted a multi-phase engagement strategy designed to:

- Maximise accessibility through online and face-to-face options.
- Embed lived experience by prioritising voices of people with disability and carers.
- Apply ethical safeguards, including informed consent, voluntary participation, and culturally safe practices.
- Reach diverse groups, including priority populations identified in the Act (Aboriginal people, CALD communities, women, children, LGBTIQ+, and people in regional areas).

Methods included:

- Online and hardcopy surveys.
- Council and community workshops.
- Drop-in sessions in regional towns.

- Individual interviews for tailored consultation.
- Remote participation options.

Engagement Activities

The engagement process was designed to be fully accessible and inclusive, offering multiple ways for community members to participate and ensuring support was available as needed.

- **Council Internal Workshop – 29 October 2025**

On 29 October 2025, Mid Murray Council held an internal workshop across its Cambrai and Mannum meeting rooms, with an online option available to ensure remote participation. The session was designed to be accessible for all attendees, including elected members, managers, staff with lived experience, and their carers. In total, 32 participants took part, representing a broad cross-section of Council staff and leadership. Among those present were seven Council Elected Members, two representatives from the Strategic Growth and Economic Activation Committee, four executives and directors, eight managers and team coordinators, and eleven officers.

- **Community Workshop – 5 November 2025**

The community workshop took place at Mannum Council facilities in an accessible venue. The purpose was to gather input on access and inclusion priorities. Attendance reached 15 people, and included people with lived experience and stakeholders from the disability sector.

- **Drop-in Sessions – 11 & 12 November 2025**

Two drop-in sessions were held in Morgan, Cambrai and Blanchetown, providing informal opportunities for community members to share feedback. These sessions were conducted in accessible locations and offered flexibility for participants to engage at their convenience. 4 community members attended these sessions. Contributions from these sessions were included in the overall engagement.

- **Individual Interviews – October 2025**

Tailored engagement was provided through individual interviews conducted via phone or email for participants who preferred or required a more personalised approach. This ensured that people with specific needs or constraints could still contribute meaningfully.

- **Online Community Survey – 15 October to 14 November 2025**

An online survey was available throughout the engagement period, complemented by hardcopy versions distributed at Council offices and community hubs to ensure accessibility for those without internet access. Assistance was offered to complete surveys where needed, ensuring equitable participation. The survey received 26 individual submissions, with additional contributions from workshops and drop-in sessions, totaling 33 recorded inputs.

This report outlines the findings of the engagement process.

Engagement Outcomes

Key Insights from Engagement

Analysis of survey responses and workshop notes highlighted recurring themes:

- **Physical Accessibility:** Lack of sealed footpaths, uneven surfaces, and inadequate ramps in towns such as Morgan, Blanchetown, and Mannum.
- **Accessible Facilities:** Insufficient accessible toilets, heavy doors, and limited Changing Places facilities.
- **Transport and Connectivity:** No public transport options; reliance on community cars and volunteers.
- **Health and Wellbeing:** Limited local health services; long travel distances for General Practitioner and therapy.
- **Information Access:** Over-reliance on social media; need for clearer signage, alternative format and a local Facilitator to assist with access.
- **Inclusive Design:** Desire for universal design in new infrastructure and upgrades.
- **Priority Group Needs:** Barriers for older adults, carers, and people with sensory or neurodiverse conditions.

The following tables summarise the consultation outcomes, and the survey report is provided in the appendix.

What Access and Inclusion Mean to Participants

Theme	Detailed Feedback from Participants
Choice & Control	Access means having the ability to participate without barriers and to choose whether to attend activities. Inclusion means being welcomed, respected, and treated equally regardless of disability, age, culture, or socio-economic status.
Physical Access	Ability to go wherever legally permitted without impediments—ramps instead of stairs, safe footpaths, accessible toilets, and transport options. Participants emphasised “ramps not stairs as I age,” and the need for universal design in all new infrastructure.
Social Inclusion	Feeling part of the community, not judged, and having opportunities to connect through programs, events, and services. “Not subjected to judgments and biases” and “being invited and accepted” were common themes.
Information Access	Clear, timely communication in multiple formats (Easy Read, large print, audio, Auslan). Avoid over-reliance on social media; include newsletters, flyers in community hubs, and hardcopy surveys.
Invisible Disabilities	Recognition of sensory and neurodiverse needs; spaces that accommodate quiet zones and flexible participation.
Equity	Equal access to services, education, employment, and recreation for all people, including those in remote areas. Participants stressed that “accessible and functional aren’t the same” and called for genuine implementation of endorsed plans.

Domain 1: Inclusive Environments and Communities

Priority Area	Current Actions	Challenges & Issues	Opportunities for Improvement
1. Active Participation	Council runs activities at Mannum Leisure Centre, Morgan Library, and community hubs.	Limited inclusive events; lack of designated seating for mobility-impaired people; social activities often centered around pubs.	Develop inclusive sports and recreation programs; provide seating areas at events; create sensory-friendly spaces; promote events widely in accessible formats.
2. Inclusive Communities & Attitudes	Community generally welcoming; council promotes consultation.	Perceived intolerance in some settings; lack of awareness of invisible disabilities.	Disability awareness campaigns; training for staff and volunteers; embed inclusion in community events.
3. Universal Design	Upgraded tables/chairs in Mary	Few footpaths; steep gradients; unsafe	Conduct accessibility audits; apply universal design in all new

	Ann Reserve; hearing loops in offices; website audio reader.	riverfront access; older buildings lack ramps.	builds; improve riverfront access with graded slopes and handrails.
4. Accessible Facilities	Some accessible toilets exist; Truro has unisex toilet.	Toilets often non-compliant; lack of adult changing facilities; poor signage; steep carpark gradients.	Upgrade toilets to Changing Places standard; improve signage; audit and increase disability parking near facilities.
5. Communications & Information	Website audio reader; community newsletters.	Over-reliance on Facebook; limited Easy Read or multilingual resources; poor signage.	Provide Easy Read, Auslan, and multilingual materials; install digital signboards; distribute hardcopy newsletters widely.
6. Transportation	No council-managed transport; relies on volunteer networks.	No public transport; unreliable community passenger network; high cost of taxis.	Advocate for state funding; explore volunteer-driven transport; develop park-and-ride options.
7. Collaboration, Consultation & Innovation	DAIP consultation sessions held; "Have Your Say" platform available.	Perception that feedback is ignored; limited engagement in remote areas.	Establish Disability Advisory Committee; provide multiple consultation formats; ensure feedback loops are transparent.
8. Housing	Compliance with legislation for new builds.	Lack of accessible housing; vacant properties; limited land release.	Advocate for inclusive housing developments; partner with state agencies to address housing shortages.

Domain 2: Education and Employment

Priority Area	Current Actions	Challenges & Issues	Opportunities for Improvement
1. Targeted Knowledge, Understanding & Support	Libraries and tech sessions available; some internal training.	Limited disability awareness among educators; geographic isolation.	Provide disability awareness and autism training for educators; promote inclusive practices in schools.
2. Supports & Resources for Children & Young People	Primary schools and libraries provide basic infrastructure.	Lack of early intervention services; transport barriers for school access.	Advocate for allied health services in schools; improve transport options for students with disability.
3. Targeted Transitional Supports	Men's Shed and Lions Club offer informal support networks.	Few structured pathways for transition to employment; limited vocational training locally.	Develop partnerships for vocational programs; celebrate inclusive community clubs; create mentoring opportunities.

4. Access to Employment Opportunities	Internal council roles comply with legislation.	Limited job diversity; barriers for neurodiverse applicants; lack of inclusive recruitment practices.	Offer flexible recruitment processes (e.g., remote interviews, pre-shared questions); encourage local businesses to adopt inclusive hiring.
5. Inclusive Working Environments	Some workplace adjustments in council offices.	Limited awareness of workplace discrimination; lack of formal inclusion programs.	Introduce workplace inclusion training; implement flexible work arrangements; create disability employment targets.
6. Data & Reporting	Basic compliance reporting.	No systematic collection of disability employment data.	Establish data collection systems; report annually on disability employment and inclusion measures.

Domain 3: Personal and Community Support

Priority Area	Current Actions	Challenges & Issues	Opportunities for Improvement
1. Accessibility	NDIS support; aged care services; community hubs.	No local personal care services; reliance on volunteers; transport barriers.	Advocate for state-funded services; improve transport for non-NDIS clients; create inclusive community programs.
2. Advocacy & Supports	Mayor and CEO advocate; community consultation.	Lack of formal advocacy roles; limited awareness of rights.	Establish Facilitation Officers; train staff in hidden disabilities; promote advocacy services.
3. Information Sharing	Council website and newsletters.	Fragmented communication; poor coordination between services.	Develop inter-agency partnerships; create centralised information hubs; improve signage and wayfinding.
4. Family & Carer Support	Referral to external services; female change rooms at sporting complex.	Limited respite options; aging population increases demand.	Provide carer support programs; advocate for respite funding; create sensory rooms in libraries and hubs.
5. Programs	Wellbeing officer during floods; leisure centre programs.	Limited staffing for ongoing programs; high community expectations.	Secure funding for inclusive programs; expand all-abilities activities in sports and libraries.

Domain 4: Health and Wellbeing

Priority Area	Current Actions	Challenges & Issues	Opportunities for Improvement
1. Inclusive Infrastructure	Hospital and clinic access improved; new medical centre planned.	No local GP in many towns; aging infrastructure; lack of compliance audits.	Conduct gap analysis; upgrade facilities to meet Australian Standards; attract funding for portable accessibility solutions.
2. Targeted Knowledge, Understanding & Support	Basic health services available.	Limited mental health literacy among staff; lack of culturally responsive services.	Provide cultural safety training; improve mental health awareness; partner with Aboriginal health services.
3. Supports & Interventions	Carer-worker visits; wellbeing officer during emergencies.	Fragmented health and disability services; long travel distances for specialist care.	Develop integrated health pathways; advocate for mobile health clinics; improve coordination between mental health and disability services.

Domain 5: Safety, Rights and Justice

Priority Area	Current Actions	Challenges & Issues	Opportunities for Improvement
1. Targeted Knowledge, Understanding & Support	Customer service support; fact sheets in plain English.	Lack of interpreter services; limited awareness of safeguarding.	Provide trauma-informed training; integrate access and inclusion into decision-making; offer translation services for CALD clients.
2. Responding to Emergencies	Community disaster plan exists.	No disability-specific emergency planning; reliance on technology excludes some.	Co-design emergency plans with people with disability; establish preferred contact methods; create disability register for emergencies.
3. Support & Navigating the Justice System	Links to external agencies on council website.	Difficulties accessing justice services; lack of local support roles.	Advocate for facilitator officers; provide tailored support for navigating legal systems; raise awareness of rights.
4. Consultation & Collaboration	"Have Your Say" platform; community workshops.	Feedback perceived as tokenistic; limited engagement in remote areas.	Appoint Disability Champions; ensure genuine co-design; provide multiple consultation formats.
5. Safeguarding	Complaints recorded and actioned.	Lack of proactive safeguarding measures; limited awareness among staff.	Create safe reporting channels; train managers in confidentiality and respect; establish safeguarding protocols.

Detailed Aspirations from Participants	
Equitable Services	Access to health, transport, and community programs comparable to metropolitan areas; reduce gaps between city and country.
Connected Communities	Everyone feels valued, safe, and included; strong networks and social opportunities beyond pubs; inclusive events with designated seating for mobility-impaired people and quiet spaces for neurodiverse participants.
Infrastructure Upgrades	Sealed footpaths, safe crossings, accessible toilets, ramps, and signage across all towns; universal design in all new developments.
Transport Solutions	Reliable community transport and volunteer-driven options to reduce isolation; explore park-and-ride and mobile services for remote areas.
Digital & Tech Support	Assistance for older residents with technology and form completion; accessible online platforms with alternative formats.
Advocacy & Representation	Disability Advisory Group, facilitation officers, and genuine co-design in council decisions; ensure feedback is respected and acted upon.
Housing & Growth	Accessible housing developments and planning for population growth; open more land for inclusive housing.
Cultural Change	A community that embraces diversity, respects lived experience and prioritises inclusion in every decision; transparency and accountability in implementation.

Q1 First and Last Name

Short Text

Q2 Do you live, work or visit the MMC Region?

Multi Choice

Live

Q3 Please enter the postcode of where you reside

Short Text

Q4 Are you? (Please tick all that apply)

Multi Choice

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

Q8 Do you identify as LGBTQIA+?

Multi Choice

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

Q10 Do you speak a language other than English at home?

Multi Choice

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice

Q16 Council facilities and services are generally accessible?

Multi Choice

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text

Public Toilets needed – closer to the RSL

Would be good to have a dog park – where people with limited mobility can let their dog off leash in a contained area.

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text

Q1 First and Last Name

Short Text

Q2 Do you live, work or visit the MMC Region?

Multi Choice

Live

Q3 Please enter the postcode of where you reside

Short Text

Q4 Are you? (Please tick all that apply)

Multi Choice

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

Q8 Do you identify as LGBTQIA+?

Multi Choice

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

Q10 Do you speak a language other than English at home?

Multi Choice

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Natural terrain and slopes make it difficult to move around the town via foot or gopher. Access to buildings is generally good however very limited dedicated footpaths and none that are sealed (except for in front of pub). lack of sealed footpaths makes it difficult. difficult and can be dangerous

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: No services available in the home or in the community. 2 hours is the closest to access health and therapy services. relies on for the majority of personal care needs.

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: No health and wellbeing services available in the community which uses weekly with support.

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

No, please explain what concerns or experiences you are aware of:: Ticked no BUT [REDACTED] DOES feel as if [REDACTED] is safe, respected and treated fairly in [REDACTED] community (with the exception of lack of footpaths etc).Close Community – [REDACTED] feels well supported and included in the network of friends and residents. [REDACTED] has a network of friends and activities in the town and very much feels a part of the community.

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice

Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown)
Footpaths
Libraries: (Mid Murray Toy Library, Morgan Public Library, Blanchetown Library)
Community Halls
Public car parks
Playgrounds
Immunisation Programs
Garbage Collection and Disposal
Street Lighting
Volunteering
Other: Limited footpaths - limits movement and participation. [REDACTED] accesses resources at the library from home (not in the library). [REDACTED] attends activities in the community hall but the access between the car park and hall is problematic [REDACTED]. Car parking at the shopping centre is good. Parking at the pharmacist is problematic. Good access to the Playground [REDACTED] [REDACTED] uses immunisation programs through [REDACTED] private GP. There is little/no street lighting.

Q16 Council facilities and services are generally accessible?

Multi Choice

Neither agree or disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text

Lack of suitable footpaths in the town. Severely limits [REDACTED] movement around the town and can be dangerous having to travel on unsteady/unsealed surfaces or on the road with car traffic.

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text

Footpaths compliant for chair access especially outside the Community owned community hub and between the main street and community hub. And between [REDACTED] house the main street and the community hub [REDACTED]

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice

Yes, please describe what is missing or difficult to access:: The closest GP is Swan Reach not easy to get in.

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text

[REDACTED] gets all [REDACTED] info via [REDACTED] partner (online). [REDACTED] can sometimes access library resources such as audio-books etc as [REDACTED]

Q1 First and Last Name

Short Text

[REDACTED]

Q2 Do you live, work or visit the MMC Region?

Multi Choice

Live

Q3 Please enter the postcode of where you reside

Short Text

[REDACTED]

Q4 Are you? (Please tick all that apply)

Multi Choice

[REDACTED]

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

[REDACTED]

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Physical access very poor around the town. Getting from the car park to the front door of the community hub [REDACTED] in particular – [REDACTED] The terrain and lack of dedicated foot paths limits pedestrian transit if someone has reduced mobility. There is only one sealed footpath in the whole of the town (in front of the pub). Many of the residents travel by gopher however travel by gopher largely has to travel on roads – very unsafe.

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: No personal support services available. [REDACTED] no services available in the town. [REDACTED] aren't able to get personal care services as there are service providers servicing Blanchetown. Wellbeing activities available in the town include Yoga and Fit for Life (Circuit). Flood Relief has provided funding for some of these activities however that will likely come to an end particularly for Fit for Life. Has had to travel to Tanunda for hydrotherapy for physical therapy.

Multi Choice	Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them? No, please share any barriers or concerns you have noticed:: No GP or other medical services in the town. Lost the part time GP clinic approx 5 years ago. Now have to travel to Waikerie or Anguston for GP appts (40 or 65km) for GP appts. And it is difficult to get appointments.
Multi Choice	Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services? Yes
Multi Choice	Q15 What Council facilities and services do you use? (select all that apply) Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown) Footpaths Libraries: (Mid Murray Toy Library, Morgan Public Library, Blanchetown Library) Community Halls Volunteering Other: advocacy, salvos. Uses footpaths where they exist. No reserves or would use, no walking trails - if stable surface, would use.
Multi Choice	Q16 Council facilities and services are generally accessible? Strongly disagree
Long Text	Q17 What barriers and difficulties do you have with Council facilities, services and open spaces? - Library only open 4 hours per week. Uses library when it is open. - Physical access to buildings is good once there. - Very difficult moving around the town. - There are no sealed footpaths and dedicated footpaths (unsealed) often have cars parked across them forcing foot and gophers onto the road. - Many gophers however many of the surfaces are unstable. - Steep inclines pose challenges but coupled with the lack of dedicated and sealed footpaths is dangerous.
Long Text	Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible? Upgrading/installing compliant footpaths through main town corridors (main street and to the Community Hub). Limit people parking outside their property across the dedicated (but unsealed) path where the verge is planted (locally referred to as the "kangaroo garden"). The verge planting has been implemented in a way that doesn't prevent cars from parking across where foot and gopher traffic can more safely traverse. The main street and down to the community hub should have dedicated sealed footpaths.
Multi Choice	Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability? Yes, please describe what is missing or difficult to access:: Need aged care support services to support the town's residents.
Long Text	Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback Feel as if feedback not listened to.

Q1 First and Last Name

[REDACTED]

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

[REDACTED]

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Sensory issues prevent me from living within urban area, neurodiversity issues limit my ability to participate in most social situations

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: There are no supports for sensory and neurodiverse issues. Invisible disabilities are overlooked

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: People with chronic health issues need consistency in support. E.g. need to see same GP to avoid having to re-explain the basics over and over again, and to avoid medical gaslighting. Same applies in most other areas where help is sought. The result is, help is not sought because of burden of misunderstanding and invalidation.

Q14 Multi Choice	Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services? No, please explain what concerns or experiences you are aware of:: Invisible disabilities are ignored, invalidated, dismissed by most services
Q15 Multi Choice	What Council facilities and services do you use? (select all that apply) Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown) Footpaths Public toilets Public car parks Reserves Walking Trails Parks Heritage Vessels Garbage Collection and Disposal Volunteering Street Lighting Community Halls Cemeteries Other: Dock Museum, Info Centre, Arnold Gallery, Mannum Institute
Q16 Multi Choice	Council facilities and services are generally accessible? Neither agree or disagree
Q17 Long Text	What barriers and difficulties do you have with Council facilities, services and open spaces? Facilities and services are generally physically accessible, but are not always sensory and neurodiverse compatible. The recent 4-day National Small Town Reinvention Conference held at Kapunda interested me, but there is no way I could participate, I simply could not sustain 4 days of that level of activity; it would drain me and overwhelm me. With awareness and planning there might have been an alternative way that I could participate, even if only partially.
Q18 Long Text	Do you have ideas and suggestions on how to make our Council facilities and services more accessible? Become aware of invisible disabilities
Q19 Multi Choice	Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability? Yes, please describe what is missing or difficult to access:: I don't know of any places for social gathering that are sensory and neurodiverse aware
Q20 Long Text	We want to know what makes it easy or hard for you to access Council information and provide feedback I'm not a Facebook or social media user, so I miss most of Council's information. Generally, by the time I see info in Mannum Mag the date for action has passed, so I rarely participate in feedback.

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

Q8 Do you identify as LGBTQIA+?

Multi Choice

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

Q10 Do you speak a language other than English at home?

Multi Choice

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Lack of easy access to the Leisure Centre eg, very heavy door into the senior citizens area used for strength for life classes

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: Uncertainty of continued Strength for Life classes, there are a lot of people who will be affected if these aren't continued next year which will be detrimental to their health.

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Yes

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice

Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown)
Community Halls
Public car parks
Mannum Leisure Centre
Garbage Collection and Disposal
Street Lighting
Other: Strength For Life classes

Q16 Council facilities and services are generally accessible?

Multi Choice

Disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text

The only disability access to the council chambers is via a very long ramp from the rear, access from the front would be much better for people using mobility walkers.
A path from the car parks at Mary Ann Reserve would improve access to the Rowing Club for the disabled.

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice

No

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text

I find the access to council information reasonable

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

Q8 Do you identify as LGBTQIA+?

Multi Choice

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

Q10 Do you speak a language other than English at home?

Multi Choice

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

Yes

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: Not enough services available and no public transport so need more community cars and drivers

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: Not enough services available

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Yes

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown)
Footpaths
Public toilets
Cambrai Swimming Pool

Q16 Council facilities and services are generally accessible?

Multi Choice Disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text Not all places have a disabled toilet. There is no ramp at the Cambrai Pool. Not all doors are automated. Footpaths are old and cracked and not on both sides of roads etc.

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text Find the money and upgrade our infrastructure to make is disability accessible.

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice No

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text I have no issues accessing uncil

Response No:
7

Live

Q3 Please enter the postcode of where you reside

Short Text

Q4 Are you? (Please tick all that apply)

Multi Choice

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

Q8 Do you identify as LGBTQIA+?

Multi Choice

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

Q10 Do you speak a language other than English at home?

Multi Choice

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: no safe river access to water to swim in, only one decent toilet, access from gym to council office dangerous ,no footpaths

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: lack of information

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: lack of information

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

No, please explain what concerns or experiences you are aware of:: not safe to walk around on rubble footpaths so have to walk on roads

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice Public toilets
Libraries: (Mid Murray Toy Library, Morgan Public Library, Blanchetown Library)
Garbage Collection and Disposal

Q16 Council facilities and services are generally accessible?

Multi Choice Disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text Where is it safe to exercise? River swimming means pulling myself up and down a rope that holds buoys and is not secure in ground. Lack of footpaths means I have to walk on roads. Grass at riverfront is often wet from sprinklers and too steep to walk on. Ramp in Wharf craft shop is very steep with no handrail, just a matter of time before some one falls and sues.

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text Put in handrails to access water at riverfront Dredge the water to remove stones, rubbish. Level out steep gradient. Install footpaths.

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice No

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text I am now subscribed to Council updates thanks to a friend informing me.

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: The school footpaths are uneven rocks the general footpaths are non-existent and gophers drive in the middle of the road

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of: There is none. I personally know of 2 families that have moved due to no support services

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed: There is none in Morgan even the community centre and Council rear carpark is dangerous

- Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?**
- Multi Choice No, please explain what concerns or experiences you are aware of:: What services
- Q15 What Council facilities and services do you use? (select all that apply)**
- Multi Choice Libraries: (Mid Murray Toy Library, Morgan Public Library, Blanchetown Library)
Playgrounds
Reserves
Boat Ramps
Garbage Collection and Disposal
Volunteering
- Q16 Council facilities and services are generally accessible?**
- Multi Choice Strongly disagree
- Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?**
- Long Text There is no reasonable access to the Morgan hub. A poorly placed garden on the corner of the CFS blocks access and they need to go around it
- Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?**
- Long Text Some levels or school rear footpaths (expected to collect children from there in the mud and rocks) I have walked this with the mayor its unsafe and no access and egress for elderly collecting grandchildren or children with high needs
- Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?**
- Multi Choice Yes, please describe what is missing or difficult to access:: In home support a list of services providers at the council
- Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback**
- Long Text You rely on Facebook to get information out to elderly

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: ALMOST ABSOLUTELY NO FOOTPATHS. IT IS VERY, VERY DIFFICULT TO WALK ON MANY OF OUR ROADSIDES IN MORGAN. THE SAME THINGS CAN BE SAID REGARDING ACCESS USING A GOPHER. MANY OF US OLDER FOLK FIND IT VERY HARD TO GET AROUND. ALSO, ALMOST A TOTAL LACK OF DISABILITY PARKING SPACES NEAR DESTINATIONS WITHIN THE TOWN..

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: FROM PERSONAL EXPERIENCES IT IS REALLY HARD TO ACCESS HELP FROM HCSP FROM WAIKERIE HOSPITAL. THE LACK OF ANY MEDICAL SERVICES IS A DISGRACE TO THIS COUNCIL.

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Multi Choice	Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services? Yes
Multi Choice	Q15 What Council facilities and services do you use? (select all that apply) Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown) Footpaths Public toilets Libraries: (Mid Murray Toy Library, Morgan Public Library, Blanchetown Library) Reserves Cemeteries Heritage Vessels Public car parks Garbage Collection and Disposal Street Lighting Community Halls
Multi Choice	Q16 Council facilities and services are generally accessible? Agree
Long Text	Q17 What barriers and difficulties do you have with Council facilities, services and open spaces? THE PUBLIC TOILETS IN MORGAN ARE A DOWNRIGHT DISGRACE. I CERTAINLY WOULD NOT LIKE TO SEE ANYTHING LIKE WHAT WAS PLACED IN TRURO IN MORGAN. OBVIOUSLY, NO ONE INVOLVED WITH COUNCIL HAS ANY FIRST HAND EXPERIENCE WITH DISABILITY ACCESS.
Long Text	Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible? WHY DO YOU CUT OFF YOUR AGED CLASSIFICATIONS AT 65+. DISABILITY REALLY SHOWS ON OUR BODIES FROM 6+ FORWARD.
Multi Choice	Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability? Yes, please describe what is missing or difficult to access:: THE TOTAL LACK OF MEDICAL SERVICES IS A DISGRACE TO THIS COUNCIL. HOW COULD YOU HAVE DONE WHAT YOU DID TO THE MEDICAL SERVICES WE HAD IN MORGAN? DO YOU REALISE HOW DIFFICULT IT IS TO GET A GP CONSULTATION 44KM TO WAIKERIE, 58 KM TO EUDUNDA. OF COURSE YOU DON'T BEAUSE VERY FEW OF THE DECISION MAKERS ACTUALLY LIVE IN MMC.
Long Text	Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback I DO THINK YOU COULD ASSIST WITH DESSIMINATION OF COUNCIL NOTICES IF YOU MADE MORE USE OF THE INTERNET ANDERECTED PUBLIC NOTICES ON TOWN NOTICE BOARDS. YOUR MMCOMMUNICATIONS VIA EMAIL ARE VERY GOOD. WELL DONE. WE CANNOT BE EXPECTED TO FIND INFORMATION VIA FACEBOOK OR WEBSITE. THERE ARE MANY PEOPLE WHO ARE UNABLE TO ACCESS THESE SOURCES.

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: No disability access public toilet facility in Sedan

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: concrete pad at entry to Sedan Hall, but depth of gravel in car park surrounds makes it difficult to push/move mobility aids

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: Long distance to travel for health & wellbeing services from some Mid Murray towns, limited accessible public transport options, limited supports/carers and service providers

- Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?**
- Multi Choice
- No, please explain what concerns or experiences you are aware of:: Suggest raising awareness of disability-specific emergency management tools
- Q15 What Council facilities and services do you use? (select all that apply)**
- Multi Choice
- Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown)
Footpaths
Community Halls
Reserves
Cemeteries
Heritage Vessels
Garbage Collection and Disposal
Volunteering
- Q16 Council facilities and services are generally accessible?**
- Multi Choice
- Agree
- Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?**
- Long Text
- Generally accessible for me (no mobility issues)
- Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?**
- Long Text
- Ask/refer to a wide range of people (residents and visitors) who live with disability how best they can be supported
- Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?**
- Multi Choice
- Yes, please describe what is missing or difficult to access:: Service provision (home assistance and social support)
- Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback**
- Long Text
- Generally able to access information from Council's website or social media platforms, or email/phone Council offices

Q1 First and Last Name

Short Text

[REDACTED]

Q2 Do you live, work or visit the MMC Region?

Multi Choice

Visit

Q3 Please enter the postcode of where you reside

Short Text

[REDACTED]

Q4 Are you? (Please tick all that apply)

Multi Choice

[REDACTED]

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

[REDACTED]

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: It is near impossible to cross the Main Street to access services with the large amount of traffic. It is difficult for elderly persons to access the public toilet. It is difficult to access services locally with the need to travel to the Barossa for doctors, dentist, hospital, banks, hairdressers and many other services.

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: Travel to basic services and follow up care.

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: There is a distinct lack of services within a reasonable distance.

- Q14** Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?
- Multi Choice
- Yes
- Q15** What Council facilities and services do you use? (select all that apply)
- Multi Choice
- Footpaths
Community Halls
Public car parks
Walking Trails
Parks
Street Lighting
- Q16** Council facilities and services are generally accessible?
- Multi Choice
- Strongly disagree
- Q17** What barriers and difficulties do you have with Council facilities, services and open spaces?
- Long Text
- I believe there is a lack of care and investment in Truro. The community group that run the op shop seem to be the main contributors and main people to show care and advocate for the much needed support.
- Q18** Do you have ideas and suggestions on how to make our Council facilities and services more accessible?
- Long Text
- Improve the oval facilities to ensure future use of the facility for all people groups.
Rebuild toilet block behind the town hall.
Offer council run community transport for residents.
- Q19** Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?
- Multi Choice
- No
- Q20** We want to know what makes it easy or hard for you to access Council information and provide feedback
- Long Text
- I receive updates from the town community group regularly.
I don't always know where to look to find updates.

[REDACTED]

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

[REDACTED]

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Difficulty accessing medical facilities when unable to drive long distances

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of: Unaware of the personal and community support services available. No 'Meals on Wheels' or community car available.

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed: People need to rely on family or friends to access services.

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Yes

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice

Footpaths
Public toilets
Community Halls
Parks
Cemeteries
Garbage Collection and Disposal
Volunteering

Q16 Council facilities and services are generally accessible?

Multi Choice

Neither agree or disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text

Toilets at Truro Hall are not accessible for people in wheelchairs. If they are at a function at the Hall they need to go up the street to the public toilets.
There is no accessible playground in Truro.

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text

Accessible toilets at the hall
Playground with accessible equipment

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice

Yes, please describe what is missing or difficult to access:: No 'Meals on Wheels', no transportation to the Barossa, Gawler, Elizabeth or Adelaide where there's medical, Service SA etc.

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text

Not aware of what's available in our local community.

Community workshop for the DAIP is 85km / 60 minutes away. Closest drop in session is during a work day 45km / 30 minutes away.

The agenda for meetings is large and difficult to skim efficiently to review.

Q1 First and Last Name

Q6 What is your age group?

Multi Choice

[REDACTED]

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: I have [REDACTED] and there is nothing in [REDACTED] to support my wheelchair. There is no transport options available on the days I can't drive or have a support worker available. There are no groups, absolutely nothing. Mid murray charge [REDACTED] residents through the nose for council rates and provide us with no resources like we don't even exist on their map. [REDACTED]

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: There is nothing here. Not even pathways

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Yes

- Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?**
- Multi Choice No, please explain what concerns or experiences you are aware of:: If we need police they come from the riverland and take up to 2 hours.
- Q15 What Council facilities and services do you use? (select all that apply)**
- Multi Choice Garbage Collection and Disposal
Street Lighting
- Q16 Council facilities and services are generally accessible?**
- Multi Choice Strongly disagree
- Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?**
- Long Text They are too far away from us. We pay way to much for our rates to receive no accessible services.
- Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?**
- Long Text Give us pathways, transport, stormwater drains so it's not flooding in winter. I have so many falls [REDACTED]
[REDACTED]
- Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?**
- Multi Choice Yes, please describe what is missing or difficult to access:: Social groups that are closer to home or buses to access them
- Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback**
- Long Text Most people with disabilities are not tech savvy

Q1 First and Last Name

[REDACTED]

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Pavement isn't suitable for wheelchairs and most shops have a step or steps at the front Doors are difficult to open

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

No, please explain what concerns or experiences you are aware of: Not being able to move around we take longer to park and get out of vehicles Often looked on as a burden

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice
Footpaths
Public toilets
Public car parks

Q16 Council facilities and services are generally accessible?

Multi Choice
Neither agree or disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text
Not wheelchair easily ramps are good if you have someone capable of pushing you uphill and back down again

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text
Ensure any renovations for public or new builds meet the requirements
Instead of having an inspector with a clipboard walk around and tick a box have some people in wheelchairs do it
They will soon find the lack of access I'm sure they would gladly volunteer
Disabled toilets are ok if the doors aren't heavy
handbasins / soap dispensers are the right height Try opening a door in a wheelchair not easy

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text
Online and transparency
Often word of mouth

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: There a lot of steps instead of ramps. The footpaths slope significantly and are uneven in a lot of areas

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Yes

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: Doctors are only available within a small window of time. They only consult a few days at a time in Mannum (if you want to see the doctor you are comfortable with, the doctor who is listed as your consulting physician)

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Yes

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice

Footpaths
Public toilets
Community Halls
Public car parks
Reserves
Parks
Mannum Leisure Centre
Boat Ramps
Immunisation Programs
Garbage Collection and Disposal
Street Lighting

Q16 Council facilities and services are generally accessible?

Multi Choice

Neither agree or disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: While North Adelaide provides reasonable accessibility, the same cannot be said for the Mid Murray region particularly Mannum. Access to Mary Ann Reserve from Randell Street is not safe or practical for people with disabilities. I have personally tripped on Trewartha Street and must take extreme care when walking down the slope to avoid injury. The Council Office also presents challenges, as I am required to park around the back to gain access. An arrangement that feels inconvenient and poorly designed. Additionally, the Leisure Centre is outdated, and the only way to reach the upstairs area is via an old chair lift that is far from adequate for modern accessibility needs. Overall, these issues make it difficult for people with mobility challenges to safely and confidently access key community facilities in Mannum.

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Yes

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Yes

- Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?**
- Multi Choice
- No, please explain what concerns or experiences you are aware of:: It often feels as though people with disabilities are an afterthought in the Mid Murray community. The approach seems more like, "We'd better do something just to keep them quiet," rather than a genuine commitment to inclusion and accessibility.
- Q15 What Council facilities and services do you use? (select all that apply)**
- Multi Choice
- Footpaths
Public toilets
Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown)
Mannum Leisure Centre
Public car parks
Community Halls
- Q16 Council facilities and services are generally accessible?**
- Multi Choice
- Strongly disagree
- Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?**
- Long Text
- As mentioned above, Trewartha Street, the Council Office, and the Leisure Centre each present their own challenges for people with disabilities. While I understand that the area's hilly terrain makes full accessibility difficult to achieve, there is still not enough being done to improve access and accommodation for everyone.
- Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?**
- Long Text
- It seems that spending time and money on accessibility upgrades is not viewed as an essential service. Instead, another survey will likely be conducted in a few years to give the impression that progress is being made, when in reality, little to no action has taken place.
- Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?**
- Multi Choice
- No
- Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback**
- Long Text
- Do you actively employ people with disabilities or seek advice from professionals in the disability sector? The Council appears unviable and consistently on the back foot when it comes to taking meaningful action. There seems to be little motivation and a reactive, rather than proactive, approach. A lack of common sense and clear direction is evident.
In one word - disappointing.

Multi Choice

[REDACTED]

Q5 If you selected above that you are a carer, specify age group and gender you are caring for:

Short Text

Q6 What is your age group?

Multi Choice

[REDACTED]

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Lack of accessible footpaths and lack of accessible/functionable toilets

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: We don't have any

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: We don't have any

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Yes

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown)
Public car parks
Volunteering
Garbage Collection and Disposal
Cemeteries

Q16 Council facilities and services are generally accessible?

Multi Choice Disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text Not many are wheelchair friendly
Female toilet in Activity centre difficult
No paths at River front, no accessible toilets with hand rails at riverfront
Most areas around town don't have paths

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text Accessible toilets is this biggest hurdles, followed by getting around town.

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice Yes, please describe what is missing or difficult to access:: Both hotels have no accessible toilets. When needed i went to the station masters house toilets which have no rails and no easy access to get to from the hotels...only steps down.

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text Accessing is fine but the complaint lodged previously about an access situation in our council area wasn't fixed

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Pavers in the main street of Mannum are huge 'trip' factors for anyone with mobility issues. Very uneven to walk on

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Yes

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Yes

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Yes

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice

Footpaths
Public toilets
Community Halls
Public car parks
Cemeteries
Heritage Vessels
Garbage Collection and Disposal
Street Lighting
Volunteering

Q16 Council facilities and services are generally accessible?

Multi Choice

Neither agree or disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text

uneven footpaths, limited disabled parking, limited access to safely get Walkers up and down off footpaths, limited Ramps

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text

lay concrete over the footpaths to make them even to walk on, make more ramps off footpaths onto roads

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice

Yes, please describe what is missing or difficult to access:: Emergency Transport. No Service after hours and at weekends.

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text

Public Meetings not well publicised. Could be letter dropped in Shops and letterboxes

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

[REDACTED]

Q8 Do you identify as LGBTQIA+?

Multi Choice

[REDACTED]

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: There is much to do, there are many barriers to inclusion in the region, not just physical barriers but also apathy in general about it.

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: Unsure about that, as distance and transportation are big barriers.

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: Unsure about that, as distance and transportation are big barriers.

Q14	Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?
Multi Choice	No, please explain what concerns or experiences you are aware of:: This is not a good question, too broad??
Q15	What Council facilities and services do you use? (select all that apply)
Multi Choice	Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown) Footpaths Public toilets Libraries: (Mid Murray Toy Library, Morgan Public Library, Blanchetown Library) Community Halls Public car parks Walking Trails Reserves Parks Mannum Leisure Centre Boat Ramps Heritage Vessels Garbage Collection and Disposal Street Lighting Volunteering
Q16	Council facilities and services are generally accessible?
Multi Choice	Strongly disagree
Q17	What barriers and difficulties do you have with Council facilities, services and open spaces?
Long Text	There are many physical barriers, but also a lack of general inclusion or even genuine thought into considering those with disabilities and what they face and more so addressing those. Lack of accountability with what is to be done and when will it be done?
Q18	Do you have ideas and suggestions on how to make our Council facilities and services more accessible?
Long Text	Yes, set up a Disability advisory group for community and also an internal one if you are being genuine. Then you can monitor information and feedback from within the community and within council and action and prioritise what needs to be addressed and improved.
Q19	Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?
Multi Choice	Yes, please describe what is missing or difficult to access:: Various Private businesses, including some tourism operators
Q20	We want to know what makes it easy or hard for you to access Council information and provide feedback
Long Text	I do not have a disability, and all these questions seemed to make the presumption that anyone answering the survey has a disability. That is not inclusive and the survey seems to only have yes or no options in the boxes. It would be better if there were boxes for unsure, with areas to write in those.

Multi Choice

Multi Choice

Multi Choice

Multi Choice

No, please explain what barriers or challenges you have experienced: Geographically many of our river towns are built on steep hills and this poses many challenges for mobility impaired people

Multi Choice

No, please explain what concerns or experiences you are aware of:: Most care is very city centric and the wait times for help in rural areas can mean going without the support needed

Multi Choice

No, please share any barriers or concerns you have noticed:: No - very few resources given to rural/remote communities and vast travel distances are needed to access many services

Multi Choice	Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services? Yes
Multi Choice	Q15 What Council facilities and services do you use? (select all that apply) Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown) Footpaths Public toilets Libraries: (Mid Murray Toy Library, Morgan Public Library, Blanchetown Library) Community Halls Public car parks Playgrounds Reserves Cemeteries Street Lighting
Multi Choice	Q16 Council facilities and services are generally accessible? Agree
Long Text	Q17 What barriers and difficulties do you have with Council facilities, services and open spaces? Mannum office mobility access area (ie ramps) are not clearly defined/signed leaving those with mobility issues climbing the front stairs ...
Long Text	Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible? Better signage for the Mannum office ramp access Small steps removed from toilets Different footpath surface in main street (less small trip hazards) for Morgan and Mannum
Multi Choice	Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability? No
Long Text	Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback The website is not easy to navigate If you do not live in Morgan, Mannum or Cambrai it is hard to physically access a council office if you wish to talk to anyone The tourism areas (including the boats) are hard to navigate if you have mobility issues Playgrounds do not cater for children with sensory issues

Short Text

Q6 What is your age group?

Multi Choice

Q7 What is your gender?

Multi Choice

Q8 Do you identify as LGBTQIA+?

Multi Choice

Q9 Are you of Aboriginal or Torres Strait Islander origin?

Multi Choice

Q10 Do you speak a language other than English at home?

Multi Choice

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: Shearer Carpark toilets & the oval toilets are not suitable for people with walking disabilities, the toilets need to be higher and grab rails put in, the cost of these items is not that great but helps those with disabilities use the toilets easier

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Yes

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Yes

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

Yes

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice

Footpaths
Public toilets
Public car parks
Playgrounds
Heritage Vessels
Garbage Collection and Disposal
Street Lighting

Q16 Council facilities and services are generally accessible?

Multi Choice

Strongly disagree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text

The toilets are not disable person friendly, the council offices have disabled car parks right alongside of stairs which the disabled can not use, along the main street there are street lights not working making using the footpaths at night difficult, also around the town there are many street lights also not working

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text

Make the toilets disabled person accessible, by putting in raised toilets and hand rails,

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice

Yes, please describe what is missing or difficult to access:: the front door to the hardware is hard to use, the steps and rail are not suitable for someone who has a walking disability

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text

getting to the front counter at the council office is very hard,

[REDACTED]

Q10 Do you speak a language other than English at home?

Multi Choice

[REDACTED]

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

No, please explain what barriers or challenges you have experienced: No changing facilities. Often to no wheelchair carparking and uneven surfaces

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

No, please explain what concerns or experiences you are aware of:: Nothing is ever easy. Carparking. Even surfaces. Stairs. Lack of turning spaces in wheelchairs. No changing facilities for older children/adults ("Changing Places" should be everywhere).

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

No, please share any barriers or concerns you have noticed:: Not sure

- Q14** Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?
- Multi Choice
- Yes
- Q15** What Council facilities and services do you use? (select all that apply)
- Multi Choice
- Footpaths
Public toilets
Community Halls
Public car parks
Reserves
Walking Trails
Parks
Other: Often can't access walking trails as only a gap for able people. Gates are locked.
- Q16** Council facilities and services are generally accessible?

Q11 Do you feel that your local community and environment are accessible and inclusive for people with disability?

Multi Choice

Yes

Q12 Can people with disability in your community easily access the personal and community support services they need?

Multi Choice

Q13 Do you think people with disability in your community can access the health and wellbeing services they need, when they need them?

Multi Choice

Q14 Do you feel that people with disability are safe, respected, and treated fairly in your community, including by emergency and justice services?

Multi Choice

No, please explain what concerns or experiences you are aware of:: I get the feeling - and it's just an observation - that some people are getting a bit frustrated with mobility scooters around the main Mannum Precinct. They usually drive on the footpaths, and some drive faster than walking speed and pedestrians have to quickly move out of their way, causing a disruption.

Q15 What Council facilities and services do you use? (select all that apply)

Multi Choice Customer Service/Community Hubs: (Mannum, Cambrai, Morgan, Blanchetown)
Footpaths
Public toilets
Community Halls
Public car parks
Reserves
Parks
Cambrai Swimming Pool
Garbage Collection and Disposal
Volunteering

Q16 Council facilities and services are generally accessible?

Multi Choice Agree

Q17 What barriers and difficulties do you have with Council facilities, services and open spaces?

Long Text I'm of the opinion that the public toilets at Cambrai and Sedan (which are well maintained), are very difficult to find, especially for people driving through. My recommendation is to provide larger signage in both towns, pointing to where they are from the main road (Ridley Road).

Q18 Do you have ideas and suggestions on how to make our Council facilities and services more accessible?

Long Text Nil

Q19 Are there any facilities or services in your community—outside of those provided by Council—that are not accessible or are missing for people with disability?

Multi Choice No

Q20 We want to know what makes it easy or hard for you to access Council information and provide feedback

Long Text Whilst the MMC Council website is acceptable, I'm aware that people have difficulty in finding information. There are quite a number of different links branching off from the main page and one has to 'dig down' to find information. The search bar isn't very intuitive either. Unless people are familiar with Web pages, it can be a laborious task and people will give up.
