Project Overview

Introduction and Background

The Lions Club of Morgan and Districts Incorporated (the Club) is the current lessee of the Morgan Institute (the Institute). The Club secured the 2.5 year plus 2.5 year lease through a competitive expression of interest process, prevailing over another applicant. The Club's submission was based upon its intention "to utilise the Institute for community events and fundraisers".

Council administration received a formal request from the Club to amend the permitted use of the Institute. The proposed amendment seeks approval for the premises to be utilised as an Op Shop. Should this request be approved, it will result in the Institute no longer being available for hire or use as a hall or community venue. Consequently, the facility would no longer serve as a location for hosting community events.

Community Engagement Approach

Although the engagement was not conducted as part of an official statutory process, feedback was actively sought from the community. This approach was adopted due to the significance of the request made by the Club and the vital role the Institute plays within the local community.

Gathering feedback was considered essential to ensure that any decision regarding the future use of the Institute reflected the views and interests of Morgan residents.

Responses received are detailed in the following report.

About Our Engagement

The purpose of this report is to outline the engagement activities undertaken by Council.

These activities were designed to assess the community's perspectives regarding the current and proposed future use of the Institute.

The purpose of the engagement was to assess community opinion regarding the proposal put forward by the Morgan and District Lions Club Inc, which involves amending the current Lease's Permitted Use to enable the Institute to house an Op Shop. If approved, this change would result in the facility no longer being available for hire or use for community events, as its use as a hall or community venue would cease.

What we wanted (Engagement Objectives)

The public engagement program had one objective:

1. To assess the community's perspectives regarding the current and proposed future use of the Morgan Institute in relation to the proposal received from the Lions Club.

What we did (Engagement Activity)

Communication

Consultation was conducted over a two-week period from Monday 8 December 2025 to 5.00pm Tuesday 23 December 2025.

Council promoted the engagement through social media, website and direct email to community and sporting groups located in Morgan and surrounds. A Facebook post was published on 10 December 2025.

Members of the community were invited to provide their feedback via the Mid Murray Your Say feedback form, email or in writing, in person at Council's Offices.

Engagement Response

Response rate

Council received 102 responses to the online survey, one written submission and one petition.

Total responses received was 129.

Note: Individuals who submitted a written response in addition to signing the petition in opposition to the proposed lease amendment have been counted as a single response only.

What We Heard - Findings and Results

Of the 129 responses received 51 were in favour of the proposed amendment to the terms of the lease for the Morgan Institute whilst 78 were opposed.

In favour

A brief summary of responses from those in favour of the proposed amendment is as follows:

- The Op Shop would provide more funds to the Lions Club and further fund its work in the community.
- Poor condition of toilets makes hiring out the institute as a venue difficult.
- The building is currently being underutilised.
- The community are not utilising the venue, and it sits empty.
- Support the Op Shop but do not address the use of the Institute itself.

Amongst the respondents who favour the proposed amendment to the lease, all expressed support for the continued operation of the Op Shop. While most backed the Op Shop being located at the Institute, some respondents suggested that, if an alternative venue could be identified, this would be preferable. Notably, there were also supporters of the Op Shop whose responses did not specifically address whether it should be housed within the Institute, focusing solely on their endorsement of the Op Shop itself.

Opposed

A brief summary of responses of those opposed to the proposed amendment is as follows:

- The hall and stage are utilised by the Morgan Primary School for concerts, discos and other events with no other suitable venues for children available within the area.
- The Institute is the only venue in the area with a stage.
- The operational hours of the Op Shop are minimal (Saturday mornings) and do not warrant exclusive use of the building.
- The opportunity for others within the community to hire the Institute for events should not be taken away.
- The Institute is a War Memorial.
- There are alternative venues for the Op Shop.

Most respondents opposed to the proposed changes to the lease have indicated that they are not opposed to the Op Shop, however an alternate location should be sought. Suggestions for an Op Shop location have included the Lions Shed situated adjacent to the Institute or limiting

the Op Shop to a specific room/s in the side of the building, leaving the main area with the stage available for community use.

Shared Use of the Institute Building

A number of respondents, both in favour and opposed to the proposed amendment, suggested the importance of sharing the Institute building among community groups. These individuals acknowledge that the Op Shop could continue to operate from within the Institute but emphasised that it should not occupy the entire premises. Instead, they propose the Op Shop utilises a portion of the Institute, allowing other areas of the building to remain accessible for a range of community activities and events, notably the hall and stage.

Conclusion

Community engagement plays a vital role in Council's decision-making process, particularly when substantial changes are proposed that have the potential to impact the community. Engaging with residents and stakeholders ensures that differing perspectives and concerns are heard and understood, providing Council with valuable insights prior to making decisions that may affect the local area. This process supports transparency and helps to ensure that decisions are informed by the views and interests of those most likely to be affected.

Next Steps

The information and data that has been collated from the community consultation phase of the Proposed Amendment to the Permitted Use of the Lease for Morgan Institute will be presented to the January Council meeting along with this What We Heard Report to inform of the request submitted by Lions Club of Morgan and Districts Incorporated Inc.

This What We Heard Report will be made available on Council's Website to close the loop on the Proposed Amendment to the Terms of the Lease for Morgan Institute consultation and the Administration, under delegation from Council, will consider the feedback received and determine next steps in relation to the request from the Club.

Appendix A – Public Notice

Council is currently seeking feedback on the following:

Proposed Amendment to the Terms of the Lease for Morgan Institute

The Morgan and District Lions Club Inc currently holds a lease over the Morgan Institute, with the arrangement providing that the venue be available for one-off hires by the community.

Council has received a request from the Club to alter the permitted use of the Morgan Institute. The proposed change would allow the premises to house an Op Shop. If approved, this alteration would mean the facility would no longer be able to be hired and utilised as a hall or community venue for hosting community events.

Council is seeking the community's thoughts on the request and proposal.

Please forward this notice to any person that you feel may be interested in commenting on this matter.

Where to obtain further information

Visit Council's 'Your Say' website www.engagement.mid-murray.sa.gov.au or call Council's Governance Officer, Vicki Bell-Booth on 8569 0100.

How to provide feedback

Written submissions are invited on the proposed lease amendment and can be received through the following means:

- Mid Murray Your Say feedback form & short survey www.engagement.mid-murray.sa.gov.au;
- Email postbox@mid-murray.sa.gov.au;
- In writing, in person at Council's Offices.

Submissions will be received until 5pm Tuesday 23 December 2025.

Ben Scales

Chief Executive Officer

Long Text

An Op Shop is a great community fundraiser, however to lose access to the historic Morgan institute would be disappointing for community groups and persons who wish to hold functions/gatherings in the building.

It is common knowledge that the Morgan & Districts Lions Club are currently struggling to remain viable (as in members) and are in danger of folding as a group, this would have to have an impact on the commitment and viability of any future long term permanent proposals for the building. Another consideration is that The Op Shop hours are currently Saturday 9am-12pm only.

There are other possible spaces that could be used, the Lions Den could be moved to one of the two rooms up stairs and the shop could go into the current Den,(to the left as you enter the building from the front) easily accessible, with no impact on the use of the main hall of the Institute. The Lions also have access 2 large sheds located next to the institute. (The Op Shop operates from 2 Sheds at current location).

The MCDTA had booked the Institute for the weekend of the Morgan Living River (over 12 months ago) in May for a dinner and photographic display. We have since been told by the President of the Lions that this is now no longer an option.

For a long time, through community consultation Morgan residents have flagged the toilets at the Morgan Institute as a priority project, If the community are no longer able to access the building, I believe that the community would no longer support this, so would become less urgent to work toward, which would be a disappointing outcome.

Long Text

The op-shop will enable more funds to remain and be spent on local community projects. While I am aware of opposition from the Morgan RSL I don't believe there will be very many activities in the main hall anymore, particularly because of the poor condition of the toilets and the property in general. The op-shop will provide weekly use and is very well patronized by the public at large.
I can see no reason why the Honour boards cannot be presented to the Morgan RSL to be displayed in their premises.

Long Text The institute is a war memorial and should be left that way. but on the other hand I do not want the Op shop to close. why cant the Op shop just reside there until there is a place is organised for them. they could put there stuff in the shed out the back, or up on the stage , or in one of the smaller rooms on the side. there are other options , just not right now.

Long Text

I believe that the information supplied to the Lions Club members who voted on this proposal was incorrect. Apparently members were told the following: 1) That there was no other suitable location for the Op Shop in Morgan. This is incorrect. The Lions Club shed next to the Institute or a side room within the Institute are alternative locations.
2) The Op Shop would disappear from Morgan if it can't be relocated in the main hall of the Institute. Once again, alternative sites are available.
3) The stated financial benefit to the Lions Club is unproven. As far as I am aware, no business plan was presented at the meeting.

Long Text

I agree that part of the Morgan Institute be used for the Op Shop, however I don't think its fair to take the whole building so it is unable to be used for the rest of the community. I understand at this time the op shop is only open on day a week, it seems unfair to take the whole building for that service

Long Text I think the institute needs be left as is so it can be used by the whole community. I feel the primary school would be the most disadvantaged if the opshop would be allowed to move in to the building. Is there any where else the opshop could use ? The opshop is a great asset to Morgan and I would hate to see our little town loose it.

Long Text

I am not in favour of the lease of the Morgan Institute be amended to hold an Op Shop in the main hall. Surely a smaller space could be found within the building eg. the room on the right from the front entrance. In my opinion, the main hall should be made available for any other parties to hire throughout the year

Long Text If the community could still use the Institute for private functions then yes I would be in favour. The op Shop has previously only been open on Saturday mornings for 3 hours so it would be an injustice to Morgan Community taking away the institute for 3 hours a week.
Would it be possible to have both, like Truro move op shop for a private function. Old Library and supper room

This will be a big mistake. Taking the only venue that the town has for kids concerts. Also for the events like other schools come and perform. To be able to hire it as a hall. The shop is open three days a week. The sport complex is a shooting gallery now this to be used as a shop. Massive NO

As one of the leaders of the Morgan Leos Youth Hub, that has been successfully running for the last year, it is essential to fund the Lions with the proceeds from the op shop so that we can continue with the Leos and so that the Lions remain and can continue to host the Xmas pageant and fete. The Leos Youth Club has 20-30 kids coming every fortnight, Leadership Experience and Opportunity is their motto and the op shop funds will allow both clubs to continue. The Leos also hosted the Halloween Trail this year and were involved with the Santa bags. The institute is the only suitable venue for the op shop at this point in time, and it serves the community so well because of its popularity. Thank you for taking the time to read this message. Kind regards, Mat Lind

I total agree to them using the hall as the op shop
As I feel it doesnt get used much at all
Mainly for school concert once a year
As most things now use the Sporting Complex
And the op shop will raise quite a lot of money for the Lions club
Which will go back into the town

Long Text I understand the current buildings (church and sheds) are to be sold, thus the Op shop to be moved to the Morgan Institute. If the law is so strict that the Institute would no longer be able to be used for other community events, then why don't the Council buy the church so it can be used specifically for the Op shop. Even though I no longer live in Morgan, I still have an interest and friends that still live there. I also still donate goods to the Morgan Op shop.

Long Text

In the last ten years it has been used three times and no one has paid for the hire of the institute. But the lions have to pay for electricity and water.

The lions is struggling with member numbers.

The lions member have to raise money for the pagent and services. Now the lions fridge is not working. It's up to so few members to raise this money. The op shop is a great opportunity to raise funds for the lions and the money stays in our community. Not everyone can afford new clothes and furniture. This is a fantastic idea to keep the lions and the op shop going in Morgan. Community has lost the nurse practitioner football league netball and cricket.

Long Text

A better space for the op shop would be Pendle's tea rooms, it is a great space. The op shop should also be open for more days a week instead of just a Saturday morning.
The morgan institute is used far more by outside groups and with any lion's events throughout the year than Pendle's is.

Long Text

I went to the institute tonight to watch my grandchildren put on their school concert and the institute is the perfect venue for them. Why would you take away a perfect place for entertainment to be held. I have been in Morgan for 7yrs and I have shopped at the op shop but I have no idea where their money goes to. I think it would be the wrong thing to allow the op shop to go into the institute and take a venue away from the community for other uses as the one I went to tonight.

Long Text

The Op Shop as is has been amazing & I would hope if it moves to the Institute, or wherever, that it remains well supported in terms of donations & customers. Many Saturday mornings, the Op Shop appears to be the 'place to be' judging by the number of vehicles at the gate.
The Institute would be more visible to visitors & a bit easier walk up the hill for houseboat visitors.
Would be great to see the building used more permanently.
The town would definitely appreciate more money to spend on facilities, etc.
Would the Op Shop be open more hours or days?
Probably have more people available to volunteer.
Such a shame won't be available for other functions but appears the Op Shop may be the best option to keep the hall being used & maintained.

Long Text

Taking away another thing from the school and children who use this institute for an op shop that's opens only 3 hours a week. Another reason younger families are turned away from Morgan. you can't have multiple things going on in the same facility that's asking for trouble. Once again the older generation who are pushing for this are the reason this town is how it is and young families are leaving. absolute rubbish idea. take the op shop elsewhere and stop taking from our kids. soon you'll be grasping for kids and The primary school will be in question.

Long Text

I do not believe the institute is the best option for an Op shop. The town needs the hall to be able to host community events, its vital to keep our community going.
I've lived here for 15 years and have never visited the op shop. But have gone to the institute many, many times. The Op shop is home to alot of outdated and old 'rubbish'. If the Op shop can find a better option I would support it but the hall is not a viable option in my opinion. I am sorry to say.

Long Text

I believe that it should be a shared building between op shop and Lions but still available for the public to hire. The op shop would fit into the other two rooms of the building and leave the main hall to be hired for kids school concerts, bands, special functions etc. upgrades to the toilets would be a necessity to this building and if there were 3 organisations using it ie young Lions, Lions (community hire) and op shop then the downer money would look favourably in being used to cater for 3 community organisations in the one building. This would utilise every room and then look more favourable on budget allocations spent on building upgrades. I believe this building should be used for op shop, Lions and the community to hire.

Long Text

The Morgan Primary School will no longer have an area to hold the concert and other functions. The living river festival will no longer have a historical building to hold their main special dinners. The whole of the community will no longer be able to hire this area for events. If the old football ground building can be renovated to hold the air rifle club and the op shop it would be more beneficial for the community.

Long Text

The small town of Morgan needs there Institute, it hosts a Stage for performing and school concerts are held there , plays ect and a lot of town history. Once the toilet block situation is sorted the options to host more events will be there but not if it's only used to sell second hand belongings. The community needs an Institute more than it needs a op shop .

Long Text

Morgan can deal with one less hireable event venue, but to permanently lose the Op Shop altogether would be a truly sad thing. The fact that the Lions Club themselves have put forward the idea to change the lease on the space speaks volumes to the positive impact this group sees in the Op shop's work within the town and community.

With the current setup, the hall is used a handful of times a year - a great space when utilised, but sitting unnecessarily empty every other day of the year. To give the Op Shop a new home in the Institute would mean weekly openings and visitors - I can't think of a better way to respect and celebrate a local historical building in changing and difficult times than to have it occupied and visited by locals and visitors alike every week.

Long Text

I don't live in Mid Murray now, but still run a business there. I have several concerns.

1. This unique public facility will removed from public use by a private business. That should be enough to say no! Lions simply should not be proposing this.

2. Is there demonstratable income generated? If proceeds go to Lions, how much has gone to the current recipients, St Johns, in the last couple of years?

3. The person who owns the business is also a member of Lions. This conflict of interest is glaring and an issue for Lions to address but still a concern for the building owner.

4. The op shop opens for just a few hours a week. Why should they get this space? I'm sure there are many businesses that would be keen on such cheap retail space.

5. No other available building has 'concert' capability.

In summary Lions should not be allowed to change their lease to turn a public space into a private space - particularly with the above concerns. Their integrity is open to question for even proposing it. If the lease is going to be changed (and it shouldn't be) maybe the building should be put out to "tender" again.

Using this space as an op shop would take the institute away from any community events that would like to use the institute like the school for end of year concert, and other fundraising opportunities for community organisations that may want to have a band etc.
Why not have the op shop in the Pendals Tea Rooms that aren't used

Long Text

The Institute is used for the youth group recently. If the op shop is moved into this location, the kids will lose the access to hall which is used frequently. This also means that events cannot be hosted there anymore. There are plenty of other venues that can be used rather than the institute. There is the complex, the activity centre or even the tea rooms. There are plenty of buildings around that can be used rather than taking away from the one building the kids of the town can use. There are bigger issues than an op shop.

The Institute has to stay as is. It is the only building suitable for holding concerts, blue light disco etc only venue with a stage.

Also there is the uncertainty of the Lions club continuing in Morgan. Until that is sorted out no decision should be made. So at this stage I do not support the change of use.

Yes because it is a beautiful old building and with would be great to see it used , also Morgan op shop and the volunteers are great for our town . On top of this I would love to see some money pumped in to upgrading the institute building wise before it's too late to fix ! Eg salt damp, plastering and paint ! It's an iconic building in Morgan and needs upkeep so it can be used for generations to come .

My daughter will be performing tomorrow with the school concert at the Institute. She is Autistic and struggles socially and has had chronic non attendance this year. It is the inclusive community connection such as this and the Halloween party that have made any school possible. From the perspective of a parent of a child with disabilities it is vital the current arrangement continues.

Morgan Sub Branch

2 High Street
Morgan SA 5320

19 December 2025

Mid Murray Council
49 Adelaide Road
Mannum SA 5238

Proposed Amendment to the Terms of the Lease for Morgan Institute

The Morgan RSL Sub Branch is opposed to the amendment of the Morgan Institute lease for the following reasons:

- 1) Community groups will no longer be able to use the Institute;
- 2) The Morgan Institute is the only building in Morgan of a suitable size to host large scale activities and community events;
- 3) The Morgan Leo's Youth Group (approx. 30 members) would no longer be able to use the Institute for their activities, including volleyball and other games. If the Leo's do not have a space, numbers are likely to decline;
- 4) Morgan Primary School occasionally uses the Institute for activities which garner a large audience, as it is the only suitable location. This would no longer be possible under the proposed lease amendment;
- 5) Music students from Prince Alfred College have performed at the Institute, showcasing their talents to the Morgan community. Once again, this was the only suitable venue;
- 6) We understand that the Morgan Living River Festival organisers have been told that the Institute will no longer be available for a planned dinner event, which is to be a highlight of the weekend's activities. There is no other venue in Morgan that would be suitable.

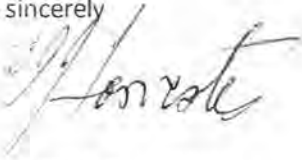

It is our understanding that the Op Shop would only be open for approximately 3 hours per week. We believe there are other options available to the Op Shop, which would not impinge on the availability of the Institute for community use. Two such options that come to mind are:

- a) The shed that stands adjacent to the Institute, which is no longer in use;
- b) A side room within the Institute, which would be large enough to house the Op Shop and would not prevent use of the Institute for community activities.

Concern has been expressed regarding the manner in which this proposal came about, whether there was a quorum at the Lions Club Meeting that approved the proposal, and whether there is a conflict of interest re persons involved in the Op Shop being amongst those who voted.

The Institute was built for the Morgan community with funds raised by the Morgan community, and has continued as a community space to this day. A section of the Institute was also built as a Returned Soldiers' Memorial. Honour Boards listing the names of locals who served in WWI, WWII, Korean and Vietnam Wars are located at the Institute. We strongly object to an 'Op Shop' taking over the people's Institute.

Yours sincerely

A handwritten signature in dark ink, appearing to read 'L. Forrester', written in a cursive style.

Leonard Thomas Forrester
President

Mr Murray Council

Re: Change of Terms of Lease for Morgan Institute

I do not agree with this as it is a Soldiers Memorial Institute with Honour Boards from World War I World War II Korea and Vietnam Wars and history. Was built as a hospital for soldiers returning from World War I by the community of Morgan.

This building would be used more frequently if the pine system was repaired like it used to be.

The hall is used quite frequently by the Morgan Primary School and Prince Alfred College Field Centre.

The hall used to be used for all state and federal elections as well.

I am not against Morgan having a op shop but I am against this hall being used for this. And only opening for 3 hours per week especially when the Lions Club of Morgan already have a 12 metre x 6 metre shed virtually empty with concrete floor in very close proximity to the Morgan Institute. Changed out it would be the ideal venue for the Morgan op shop.

Yours truly
J. Forrest
L.T.J. Forrester
19/12/25.

WE THE UNDERSIGNED HEREWITH PETITION THE
MID MURRAY COUNCIL TO RESOLVE THAT THE MAIN
HALL AT THE MORGAN INSTITUTE REMAIN AS A PUBLIC
ENTERTAINMENT VENUE. THIS BUILDING WAS BUILT BY
THE PEOPLE OF MORGAN FOLLOWING WW1 AS A MEMORIAL
TO THE PEOPLE WHO FOUGHT AND SAVED THEIR LIVES
IN WW1 AND SUBSEQUENT WARS.
